

Pabaamashi Grant

The Kenora and Lake of the Woods Regional Community Foundation, an independent, volunteer driven, charitable organization that builds and manages endowment funds to support local charities and community priorities has granted \$5,070 to the Pabaamashi Land Based Family Camps Project at Knox United Church. The funding was received on June 20, 2019. The funds were used to purchase much needed equipment for the project, which created places for families to come together and experience Anishinaabe practices and teachings, while fostering intercultural space where participants could share their knowledge with one another, focusing on the land; water, air, creatures, medicines.
